Subject: PCBs: Former Pechiney Cast Plate Facility -- Update

Good morning Carmen,

As an update on work progress for the Pechiney site, we continuing the following tasks over the next few weeks:

- Continuing to remove PCB-impacted concrete slabs in the north portion of the site (Phase I and Phase II areas) and transporting the impacted concrete off site for disposal,
- Collecting soil samples in area where PCB-impacted concrete slabs have been removed,
- Beginning removal and confirmation/verification sampling of PCB-impacted soil outlined in the RAP,
- Preparing below grade structures for removal,
- Continuing to remove slabs and footings, and
- Continuing to process concrete in preparation for crushing. The crusher has been mobilized to the site and concrete crushing will likely begin mid-week.

Please let us know if you need any additional information.

Regards,
Linda Conlan, PG
